Summary

Experienced Data Professional with an M.Sc. in Computer Science (94.33% CGPA, Governor-General's Gold Medal). Leverages data modeling expertise at Belluz and past tenure at Uber, building scalable ETL pipelines processing 100K+ daily records. Highly proficient in Python, Advanced SQL, and cutting-edge machine learning frameworks to transform complex datasets into strategic insights. Consistently builds highly precise data workflows and dynamic visualization dashboards to drive operational efficiency across cross-functional teams.

Technical Skills

Data Engineering & Architecture: Python, PySpark, SQL, PostgreSQL, Google BigQuery, ETL/ELT Pipelines

Data Analysis & Visualization: Microsoft Fabric, Power BI, Tableau, Microsoft Excel, MS Office, Google Sheets

Machine Learning & AI: PyTorch, XGBoost, Scikit-Learn, Pandas, NumPy, 3D-CNNs, MAML

Tools & Web Frameworks: AWS, GCP, Azure Databricks, Snowflake, Git, CI/CD Workflows, Flask, REST APIs, JIRA

Experience

Data Analytics Engineer

May 2026 – Present

Belluz Concrete & Rentals (Northwestern Ontario Innovation Centre)

Thunder Bay, ON (Remote)

- Automated 100% of data ingestion by building Python-PostgreSQL pipelines to resolve severe extraction delays.
- Boosted decision efficiency by 30% by deploying Power BI Fabric models to resolve KPI tracking gaps.

Graduate Assistant

Jun 2025 – Aug 2025

Lakehead University

Thunder Bay, ON

- Improved class performance by 30% via Python and AWS debugging mentorship to overcome student learning roadblocks.

Data Engineer & Analyst

Feb 2023 – Aug 2024

Uber Technologies Inc. (On-site Vendor - Nineleaps Technology Solutions)

Bangalore, India

- Processed 100K+ daily records by engineering 10+ Python-SQL pipelines to eliminate manual data extraction.
- Drove a 40% efficiency increase by streamlining backend queries across 5 projects to eliminate analytical lag.

Machine Learning Intern

Jun 2021 – Aug 2021

Knowledge Solutions India

India

- Forecasted trends with 87% accuracy by coding a K-Means clustering model to resolve manual analysis gaps.
- Achieved 89% predictive accuracy by executing a Logistic Regression framework to automate slow health diagnostics.

Projects

Uber GSS Ads-Ops & Rider Analytics | *Python, SQL, Tableau, JIRA, QueryBuilder, uWor*

- Delivered analytics on 100K+ daily records by enhancing Python-SQL pipelines to resolve rider data tracking gaps.
- Ensured 100% Tableau platform uptime by resolving critical system bugs via JIRA to eliminate backend crashes.

Deepfake-Resilient Authentication | *PyTorch, FastAPI, React.js, WebRTC, 3D-CNN, MAML*

[View Here](#)

- Attained 100% biometric accuracy by constructing a PyTorch 3D-CNN framework to counter synthetic media threats.
- Reduced verification times to sub-5s by integrating a FastAPI WebRTC system to resolve high latency bottlenecks.

Jobtrix - AI-Powered Job Portal | *Python, Flask REST API, MySQL, XGBoost, Requests*

[View Here](#)

- Generated tailored ATS resumes for 500+ students by programming a Flask-XGBoost API to solve job mismatching.
- Loaded 1,000+ postings with 95% precision by automating a Python scraping pipeline to eliminate manual entry.

Education

Lakehead University

Sep. 2024 – May 2026

Master of Science in Computer Science - CGPA : 94.33%

Thunder Bay, Canada

Courses: Database Management Systems, Software Engineering & Agile Methodologies, Machine Learning, Data Structures & Algorithms, Artificial Intelligence, Big Data, Natural Language Processing

Medals & Awards:

- Governor-General's Gold Medal (May 2026)
- Dean's Scholar Award for Science and Environmental Studies (May 2026)
