📁 Portfolio

Summary

Experienced Data Professional with an M.Sc. in Computer Science (94.33% CGPA, Governor-General's Gold Medal). Leverages data modeling expertise at Belluz and past tenure at Uber building scalable ETL pipelines processing 100K+ daily records. Highly proficient in Python, Advanced SQL, and cutting-edge machine learning frameworks to transform complex datasets into strategic insights. Consistently builds highly precise data workflows and dynamic visualization dashboards to drive operational efficiency across cross-functional teams.

Experience

Data Analytics Engineer

May 2026 – Present

Belluz Concrete & Rentals (Northwestern Ontario Innovation Centre)

Thunder Bay, ON (Remote)

- Constructed Python-PostgreSQL pipelines to resolve extraction delays, automating 100% of real-time data ingestion.
- Formulated Power BI semantic models via Microsoft Fabric to resolve KPI tracking gaps, boosting decision efficiency by 30%.

Graduate Assistant

Jun 2025 – Aug 2025

Lakehead University

Thunder Bay, ON

- Mentored 50+ students in Python and AWS, driving rapid debugging to improve class performance by 30%.

Data Engineer & Analyst

Feb 2023 – Aug 2024

Uber Technologies Inc. (On-site Vendor - Nineleaps Technology Solutions)

Bangalore, India

- Automated 10+ Python-SQL pipelines via uWorc to process 100K+ daily records, generating final tables for Tableau dashboards.
- Streamlined backend queries across 5 projects to eliminate analytical lag, driving a 40% efficiency increase.

Machine Learning Intern

Jun 2021 – Aug 2021

Knowledge Solutions India

India

- Programmed a K-Means model analyzing 1,000+ metrics to resolve manual gaps, forecasting trends with 87% accuracy.
- Executed a Logistic Regression framework to automate health diagnostics, achieving an 89% predictive accuracy.

Technical Skills

Data Engineering & Architecture: Python, PySpark, SQL, PostgreSQL, Google BigQuery, ETL/ELT Pipelines

Data Analysis & Visualization: Microsoft Fabric, Power BI, Tableau, Microsoft Excel, Google Sheets

Machine Learning & AI: PyTorch, XGBoost, Scikit-Learn, Pandas, NumPy, 3D-CNNs, MAML

Tools & Web Frameworks: AWS, GCP, Azure Databricks, Snowflake, Git, CI/CD Workflows, Flask, REST APIs, JIRA

Projects

Uber GSS Ads-Ops & Rider Analytics | Python, SQL, Tableau, JIRA, QueryBuilder, uWorc

- Enhanced Python-SQL pipelines handling 100K+ daily records to resolve tracking gaps, delivering precise analytics.
- Resolved system bugs via JIRA to eliminate backend crashes, ensuring 100% platform uptime for Tableau dashboards.

Deepfake-Resilient Authentication | PyTorch, FastAPI, React.js, WebRTC, 3D-CNN, MAML

[View Here](#)

- Constructed PyTorch 3D-CNN framework to counter synthetic media threats, achieving up to 100% biometric accuracy.
- Integrated a FastAPI system to resolve high latency bottlenecks, reducing verification times to sub-5s via WebRTC.

Jobtrix - AI-Powered Job Portal | Python, Flask REST API, MySQL, XGBoost, Requests

[View Here](#)

- Programmed a Flask and XGBoost API to solve job mismatching, generating tailored ATS resumes for 500+ students.
- Automated a Requests web scraping pipeline to eliminate manual entry, loading 1,000+ postings with 95% precision.

Education

Lakehead University

Sep. 2024 – May 2026

Master of Science in Computer Science - CGPA : 94.33%

Thunder Bay, Canada

Courses: Database Management Systems, Software Engineering & Agile Methodologies, Machine Learning, Data Structures & Algorithms, Artificial Intelligence, Big Data, Natural Language Processing

Medals & Awards:

- Governor-General's Gold Medal (May 2026)
- Dean's Scholar Award for Science and Environmental Studies (May 2026)
